The seventh Industrial Control System Security Workshop will be held online Tuesday, December 7, 2021, in conjunction with the Annual Computer Security Applications Conference (ACSAC).

**Statement on COVID19.** This workshop and ACSAC is being held Virtually this year. More information is available at the conference site, [https://www.acsac.org/](https://www.acsac.org/)

**Call for Papers.** Supervisory control and data acquisition (SCADA) and industrial control systems (ICS) monitor and control a wide range of industrial and infrastructure processes such as water treatment, power generation and transmission, oil and gas refining, and steel manufacturing. Furthermore, the Industrial Internet of Things (IIoT) is rapidly expanding the interconnectivity of ICS environments and introducing many new threats. These environments have been identified as a key target of more generic threats (ransomware), along with more recent tailored nation-state threats targeting safety instrumented systems (TRISIS).

The critical requirement for high availability in SCADA and industrial control systems, along with the use of resource-constrained computing devices, legacy operating systems, and proprietary software applications limits the applicability of traditional information security solutions. The goal of this workshop is to explore new techniques to improve security-critical control systems in the face of emerging threats. Papers of interest including (but not limited to) the following subject categories are solicited:

- IIoT security
- Intrusion detection and prevention
- Emerging threats to ICS
- Vulnerability analysis and risk management
- Digital forensics for ICS/PLCs
- ICS oriented cybersecurity education
- Performance evaluation of security methods and tools in control systems
- Innovative ICS/SCADA testbed designs
- Supply chain vulnerabilities and protections

**Technical Paper Submissions**

Submissions should be 5-10 pages, using the double-column ACM proceedings format (acmart) template available at [https://www.acm.org/publications/taps/word-template-workflow](https://www.acm.org/publications/taps/word-template-workflow), with the [sigconf, anonymous] options. Two additional pages can be used for the Appendix. Note that the reviewers are not expected to read the Appendix.

Submissions should not use older ACM templates (e.g., sig-alternate). If you encounter any problems with the acmart template, please contact acmtexsupport@apracorp.com. You can also report problems with the template to [https://github.com/borisveytsman/acmart/issues](https://github.com/borisveytsman/acmart/issues) so that they are reviewed by SIG volunteers.

All submissions must be anonymous. The submission website is at [https://easychair.org/conferences/?conf=icss2021](https://easychair.org/conferences/?conf=icss2021).

**Publication**

The accepted workshop papers will be published by ACM. The slides will be published on the ACSAC website.

**Important Dates**

- **Submission Deadline:** September 17, 2021
- **Acceptance Notification:** September 24, 2021
- **Final Manuscript due:** November 15, 2021
- **Workshop Date:** December 7, 2021

**Further details about the workshop can be found at the workshop web site:**

[https://www.acsac.org/2021/workshops/icss/](https://www.acsac.org/2021/workshops/icss/)
Organizing Committees

General Co-Chairs:
Harvey Rubinovitz, The MITRE Corporation
Adam Hahn, The MITRE Corporation

Program Chair
Irfan Ahmed, Virginia Commonwealth University

Publication Chair
Julian Rrushi, Oakland University

Panel Chair
TBA

Publicity Chair
Hyunguk Yoo, University of New Orleans

Program Committee Members include:
Magnus Almgren, Chalmers University
Carlos Barreto, University of Texas at Dallas
Elisa Bertino, Purdue University
Ernest Foo, Griffith University, Australia
Huaqun Guo, Institute for Infocomm Research
Sye Loong Keoh, University of Glasgow
Marina Krotofil, Maersk
Juan Lopez Jr, Oak Ridge National Laboratory
Daisuke Mashima, Advanced Digital Science Center in Singapore
Stephen McLaughlin, Samsung Research America
Tommy Morris, University of Alabama in Huntsville
John Mulder, Sandia National Laboratories
Neil C. Rowe, Naval Postgraduate School
Julian Rusli, Oakland University
Hyunguk Yoo, University of New Orleans
Saman Zonouz, Rutgers University

Workshop Registration

If you are interested in attending, please check off the appropriate box on the conference registration form and add in the Industrial Control System Security (ICSS) Workshop fee.
